EXPERIENCE

MavPASS Leader for CIS 122 (Data Structures)

August 2023 – May 2025

Minnesota State University, Mankato

Mankato, MN

- Curated weekly lesson plans to supplement what students learned in the course in any given week.
- Collaborated with professor to ensure lesson plan content was relevant and useful.
- Used technical communication to break down complex topics into simpler ones for students.

Software Developer Intern

June 2024 – August 2024

RSM US LLP

Minneapolis, MN

- Implemented clients' needs for their company's Oracle NetSuite instance through custom scripts in TypeScript.
- Leveraged FreeMarker Template Language to create advanced PDF and HTML/CSS templates to allow for clients to streamline processes with custom forms.
- Led all interns in client billable hours for the duration of the internship.

Quality Assurance Engineer Intern

June 2023 – August 2023

RBC Wealth Management

Minneapolis, MN

- Developed automated end-to-end testing for Account Opening and Servicing (AOS) internal application.
- Updated application models to reflect new features added for testing.
- Rebuilt GitHub repository from the ground up for the AOS automation team to ensure organization

PROJECTS

Hidden Village Online | *Node.js, React, MediaPipe, Firebase*

January 2025 – May 2025

- Aided in development with a game for elementary students to learn about geometry through embodied learning.
- Added video recording, upload, and download support for users and admin to review gameplay footage.
- Developed a custom narrative editor module for players to design their own dialogue for levels.

Wiz Recruiting | *Python, Flask, React, PostgreSQL, SQLAlchemy, AWS*

August 2024 – December 2024

- Created a recruiting application from scratch to parse a coaches inbox for emails from recruits, pick out important pieces of information and send them to a database.
- Constructed a database schema and implemented this database through Amazon Web Services' relational databases.
- Developed a clean and accessible Dashboard UI for a coach to view, sort, and filter recruits.

Mayo Hospital Placement Need Predictor | *Python, Flask, Scikit Learn, React*

January 2024 – May 2024

- Developed, trained and evaluated machine learning models to determine whether patients needed placement to a transitional care unit in the hospital based on chart data.
- Achieved over 75% precision in the minority class of patients needing a stay, and even higher overall accuracy.
- Implemented model persistence with pickle to eliminate redundant training cycles, significantly speeding up on-demand evaluations.

EDUCATION

Minnesota State University, Mankato

Mankato, MN

Bachelor of Science in Computer Science, Minor in Mathematics, 3.6 GPA

June 2022 – May 2025

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, HTML/CSS, SQL (Postgres), HTML/CSS, MongoDB Query Language

Frameworks: React, Node.js, Flask

Developer Tools: Git, Docker, WSL, AWS, Google Cloud Platform, Render, VS Code, WebStorm, Jupyter Notebooks

Libraries: pandas, NumPy, scikit-learn, Matplotlib, SQLAlchemy, MediaPipe, XState
